Apple Tree Dental-Fergus Falls Clinic. Accessing dental care is the single largest unmet healthcare need for low income Minnesotans. People without traditional dental insurance coverage are most at risk. According to the Minnesota Department of Human Services, there are more than 17,000 people on Medical Assistance or Minnesota Care in Otter Tail, Grant, Douglas, Stevens, Pope and Wilkin counties. There are no other full time community clinics in Otter Tail to provide care to low income children, families, adults or the elderly. Apple Tree Dental was invited to come to Fergus Falls by Otter Tail County community leaders including the Otter Tail Public Health, the local hospital, West Central Initiative and the Early Childhood Dental Network who were concerned about the county's shortage of dental care for low income people, especially children, and wanted a sustainable community solution.
